ARJUN SHARMA

Junior Full Stack Developer

New Delhi, India • +91 98765 43210 • arjun.sharma.dev@gmail.com • linkedin.com/in/arjunsharma • github.com/arjunsharma

PROFESSIONAL SUMMARY

Performance-driven Junior Full Stack Developer with hands-on proficiency in building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in architecting secure RESTful APIs, JWT-based authentication, and responsive frontend architectures, with practical experience integrating generative AI APIs (Gemini). Strong foundation in data structures, asynchronous JavaScript, and Git collaboration workflows, committed to writing clean, maintainable code in an Agile environment.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), React.js, React Hooks, HTML5, CSS3, Tailwind CSS, Axios, Vite

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, bcrypt, Middleware, Asynchronous Programming

Databases: MongoDB, Mongoose, MySQL, Sequelize ORM

Tools & Practices: Git, GitHub, Postman, MongoDB Compass, VS Code, Render, Agile/Scrum Methodologies

KEY PROJECTS

AI Job Preparation Platform

React.js, Node.js, Express.js, MongoDB, JWT, Gemini API

- Architected an AI-powered full-stack application analyzing resumes and job descriptions to provide automated interview questions and skill-gap reports using the Google Gemini API.
- Engineered robust authentication with JWT and password encryption with bcrypt, securing client access through React protected routes and Express middleware.
- Designed optimized MongoDB schemas with Mongoose and built modular RESTful endpoints consuming asynchronous API payloads with Axios.

E-Commerce Web Application

React.js, Vite, Node.js, Express.js, Sequelize, MySQL, Render

- Developed an end-to-end responsive e-commerce platform incorporating product catalogs, dynamic shopping cart management, and seamless order checkout workflows.
- Built clean, scalable RESTful micro-endpoints using Node.js and Sequelize ORM for ACID-compliant transactional data handling in MySQL.
- Configured and deployed web services and production builds to Render, managing environment configs and continuous deployment.

Task Management Web App

React.js, Node.js, Express.js, MongoDB, Mongoose, Tailwind CSS

- Built a full-stack task organizer featuring complete CRUD capabilities, multi-status filtering, and responsive UI components styled with Tailwind CSS.
- Implemented custom Express route guards and JWT verification to isolate workspace data per authenticated user profile.

EDUCATION

B.Tech in Computer Science and Engineering 2022 – 2026

ABC Institute of Technology, New Delhi

CGPA: 8.1 / 10.0

CERTIFICATIONS & ACHIEVEMENTS

- Problem Solving: Solved 150+ DSA problems across LeetCode & GeeksforGeeks.
- Certifications: Full Stack Web Development & Node.js/Express.js Development.
- Hackathons: Active participant in college-level technical hackathons and coding contests.
